

PANKEY SCHOLAR PROGRAM REQUIREMENTS

Are you interested in becoming one of only a select few to be called a Pankey Scholar? The Pankey Scholar program is intended for those who desire to continue their self-development by demonstrating the level they have achieved in clinical competency; behavioral relations with patients, staff, and others; philosophical understanding and application; and practice financial management.

In two sessions, you will be asked to demonstrate your understanding of your practice financial situation and prudent managerial decision-making. Staff issues and application of principles learned through the Essentials will be revealed through group discussions. You also will be asked to display a portfolio of your excellent dentistry to the Scholar Panel. The second session will follow the first by nine months to allow time for you to complete individualized growth assignments based on the discovery of the first session.

Each session is limited to six participants. Fluent understanding of the principles of comprehensive patient care, occlusion, interdisciplinary care and restorative dentistry, as taught at The Pankey Institute, will be afforded each participant.

Purpose:

To further facilitate the application and refinement of the principles and practices of the Pankey Philosophy for the benefit of the patients we serve.

Benefits:

Ever-improving patient care through:

- Continued mentored growth by selected faculty
- Acknowledge your accomplishments and dedication to professional growth and development
- Structured on-going confirmation of individual achievement
- Providing an objective means of self –assessment of personal and professional growth
- Creating awareness of areas for future growth
- Layering of new concepts

Prerequisites:

- Submission of 1 documented case to be reviewed by your mentor at the time of enrollment into the scholar process, does not have to be the same case as for scholar presentation.

Pre-op: 4 pictures

Examples of your preparation and provisional restoration: 2 pictures

Finished case: 4 pictures

- Be a licensed dentist in good standing
- Completion of E1-4
- Completion of Two Focus Courses or Equivalency

Curriculum:

Two, 2 day courses (Parts A & B), nine to twelve months apart, limited to no more than 6 participants, with the same participants committing to attend Parts A & B together, and the possibility of additional sessions when required.
